Germans Have Resumed Offensive British and Spanish Ambassadors Convey Information of Trouble to Secretary Bryan.

> Washington, March, 4 .-- A serious crisis has been reached in the state of affairs in the Mexican capital, where thousands are out of work. The scarcity of food is threatening the population with starvation, and General Obregon is issuing incendiary statements calculated to incite the populace to riot and attacks on foreigners. Pillaging of the shops of Spanish merchants has already begun, and outrages are feared. To add to the ten sion of the Zapatistas have been en gaged in skirmishes in the suburbs

with Obregon's troops. Sir Cecil Spring-Rice, the British Ambassador, and Juan Riano, the Spanish Ambassador, made separate calls upon Secretary Bryan today and discussed the Mexico City situation They communicated the contents of messages received from the British and Spanish diplomatic representat ives in the capital and inquired for information from the state department, The Spanish ambassador had a telegram from the Spanish Minister in Mexico City which stated that all the shops in the capital had been closed, that merchants were fearing riots and pillage, and that the pillaging of Span-

ish shops had already begun. The pillaging is being attributed to the failure of General Obregon to resupplies are entering the capital, and the unemployed are without funds and hungrily clamoring for relief. In his proclamations and statements to the press General Obregon has been blam ing the economic situation in Mexico City upon the merchants and upon ard them. This does not accord with information reaching the state department showing that foreigners have made liberal donations to a relief Berlin itself admits defeat in the fund and are endeavoring to relieve the situation, but cannot bring food into the capital because the Carran zistas are utilizing the railroad between Vera Cruz and the capital for military purposes exclusively.
